

Worksheet

Evaluate the following integrals.

1. $\int \frac{3x + 2}{(x - 1)(x + 4)} dx =$

2. $\int \frac{x^2 + x - 5}{x + 3} dx =$

3. $\int \frac{x + 5}{x^2 + 6x + 10} dx =$

4. $\int \frac{x - 1}{x^2 + 3x + 4} dx =$

Set up (do not solve) the partial fraction decomposition for $\frac{4x - 3}{x^2(x + 3)(x^2 + 2x + 9)(x^2 + 1)^3}$.
