

Section 1.3

I. Function Definition

a. Unique

- i. vs. distinct
- ii. vs. well-defined

Examples

II. Functional Notation

a. piece-wise functions

Examples

III. Domain of Function

Examples

IV. Composition of Functions

Examples

V. Graph of Function

- a. Table 1.3
- b. Vertical Line Test
- c. Intercepts

Examples

VI. Symmetry

- a. y - axis symmetry
- b. origin symmetry

Examples

VII. Classification of Functions

Examples
